

Math Awareness Week Contest 2025

The contest will begin Monday, April 21 and run through Friday, April 25. Each day a new question will be posted on this website at (approximately) noon Central Daylight Time. The first person to answer all five questions correctly (via e-mail to MathContest@MissouriState.edu) will win \$150 worth of books of their choosing from the Mathematical Association of America. The first runner-up will win \$75 worth of books. Note that waiting and submitting all five answers on Friday is allowed (although this limits the feedback you will receive).

Good luck!
